Specialized Training by Delta

Delta Strategic Solutions developed executive protection protocols and trained the protection team for Aviation Vertical, a Colombia-based aviation company contracted by Halliburton to provide aviation services in support of the U.S. Department of Defense during Middle East conflicts.

As part of the contract requirements, Aviation Vertical's executives were mandated to have a qualified protection detail. DSS was officially approved by the Department of Defense to design and deliver this specialized training

Delta Strategic Solutions was selected to design and implement the official security policies and procedures manual for the Dominican Republic Army, the agency responsible for regulating and overseeing all civilian security guard operations throughout the country.

The founders of Delta Strategic Solutions have personally trained our executive protection teams in Mexico, bringing extensive experience from both government service and the private sector. Since 2008, DSS has retained long-standing clients—a testament to the superior training and professionalism instilled in our in-house teams.

Our Assignments

- Offered executive protection for the Berkshire Hathaway annual meeting within the United States for HNW individuals and families that attend the The Berkshire Hathaway annual meetings. Coordinated with local authorities and site security.
- Delta Strategic Solutions has collaborated with the FBI and U.S. Marshals Service to provide protection for families of federal witnesses. Our team has supported multiple cases, each presenting unique challenges—often involving the protection of multiple residences and high-profile individuals.
- Delta provides security auditing and training for the Port Authority of New York & New Jersey
- Delta Strategic Solutions provided executive protection for Robert J. O’Neill, the U.S. Navy SEAL credited with killing Osama Bin Laden.

Note: Our teams are linguistically and culturally proficient, enabling us to operate effectively across diverse regions and with clients from around the world.
